THEY ARE ITS KEEPERS
Harding, Hughes, Lodge and Knox
Are Now in Charge of
"Americanism."

"Americanism" just now is in the keeping of the executive and senatorial departments—Warren G. Harding and Charles E. Hughes holding up the presidential end of it, and Henry Cabot Lodge and Philander Knox lifting the senatorial end of it. It is resolved that, so far as is possible, the deeds of Woodrow Wilson shall be forgotten, and the ideas of Woodrow Wilson eliminated, divorced, dissociated from all American diplomacy dealing with the world war. Only a while ago it was proclaimed from all the house-tops that it would be infamy intolerable, dishonor indelible, to abandon our allies in the world war and, like Soviet Russia, make a separate peace with Germany. But now we are told by Senators Lodge and Knox that a separate peace with Germany is not only the profoundest policy as a matter of statecraft, but the most beautiful ethic as a matter of morality.

The republican party, the republican president, the republican secretary of state, have repudiated the treaty of Versailles, the republican treaty of peace negotiated at Versailles concluding the world war. It is a pity that the republican party did not have in reservoir the very water with which Pontius Pilate washed his hands in which to drink damnation to Wilsonism as Wilsonism was written in the treaty of Versailles. "Colonel" George Harvey, William Randolph Hearst, Sylvester Viereck, Lamont De Valera, Tom Watson, Robert M. La Follette, the parlor socialists of the parvenu rich, the bolsheviks of our city slums, the profiteers to whom the god of war lends the touch of Midas—these and those keep step to the anti-Wilson piping of Harvard College, the Union League club, the New York Tribune, Munsey's Herald and "The Party of Great Moral Ideas."

The French say there are occasions when a wig stands on end. We can well believe it when the set I name are in an anti-Wilson ory, and Henry Cabot Lodge, washing his hands with invisible soap of imperceptible water, cries, aloud in pharisaical strain: "Bless you, my children, Divine Providence is under extreme obligation to you and to me!" If I am guilty of any slight plagiarism in that paragraph I am sure you will not only condone it but applaud it.

And here comes in brazen front this infernal "Americanism" that stalked so vociferously and so arrogantly and so loathsomely in the senatorial chamber when the league of nations was the theme of slander and stupidity, and upon the raging stump last year when the G. O. P. was mobilizing the rabble who shrieked for the release of Barabba. What is this "Americanism?"

Here is just one specimen of it—and not the most odious specimen either. The United States utterly repudiated the treaty of Versailles and denounced it as everything that is odious in diplomacy, and yet the United States is firmly resolved to hold on to and demand the execution of all the manifest advantages that acquire to us in the terms of that treaty. Thus we reap where we do not sow; pluck figs from this Wilson thistle; we gather grapes from this Wilson thorn, we demand and intend to have all our rights, but we absolutely refuse to perform any duty imposed on us by the stipulations of the treaty.

There is arrogance for you, the arrogance that made the Germany of the Hohenzollern hateful in the sight of world public opinion. It is impossible to conceive that a high-minded man would act in a private walk the part the Knox plan sets for our glorious union to play as sequel to the awful world tragedy of 1914-18. But Henry Cabot Lodge has served notice on the world that mankind has got to accept this villainous "Americanism" that grabs everything and gives nothing. If this sort of Logicism is to become our settled policy it is only a question of a short time when our glorious union will become completely isolated without one single friend among all the nations.

WHERE WERE YOU THEN AND WHERE ARE YOU TODAY?

Where were you when Henry Ford was trying to raise the first few thousand dollars necessary to start the enormous industry known as the Ford Motor Company? Had you invested \$1,000 in Ford's stock, IT WOULD HAVE BROUGHT YOU IN 1919 \$122,700. TO SAY NOTHING OF THE ENORMOUS DIVIDENDS IT HAS PAID.

If you really had such an opportunity, would you grasp it?
SUCH AN OPPORTUNITY IS NOW OFFERED YOU.

The Tractor Industry today stands on about the same level as the Automobile Industry did at the time Henry Ford offered his stock for sale.

In the agricultural field the tractor market is usually based on the number of farms of one hundred acres or more. According to the last census figures, there are 2,537,391 farms of this size or larger in the United States alone, and 1,453,963 farms averaging very close to one hundred acres. The potential tractor market, therefore, can be conservatively estimated at 5,000,000 tractors, which will be absorbed within the next ten years. The present tractor output of the country is between two and three hundred thousand per year, with a large part of this output immediately taken up for replacement, the life of the average tractor being less than three years.

The Nelson-Four-Wheel Drive Tractor is a revolution in tractor construction. It is built on entirely new mechanical lines, designed to give universal, all-year-around service.

It is dependable, easy and economical to operate.

Its unusual mechanical construction fits it to work on bottom land or on steep, rocky hillside surfaces and to give the same steady, efficient service in winter and summer.

You are herewith invited to become a stockholder in the corporation manufacturing the Nelson Tractor.

A SMALL AMOUNT OF PREFERRED (8% Cumulative) STOCK IS OFFERED BY US SUBJECT TO PRIOR SALE AND ADVANCE IN PRICE. Subscriptions will be accepted in the order received. All reservations for stock must be made within 30 days from date.

With the tractor industry in its infancy, its markets are yet almost wholly undeveloped, and with a product of such a wide range of usefulness, it is obvious that the stock of the Nelson Manufacturing Corporation has possibilities of great and increasing value, far beyond the ordinary realization from investment in products not having these almost unlimited fields of activity.

It is rarely that such an opportunity is offered to the public, for participation in an industry which is rapidly becoming one of the great enterprises of the present day.
